- **Digital Marketing:** SMM, SEO, SEM, Brand Promotion, Content Marketing, PPC
- **Client Engagement:** Client Relationship Management, Communication, Feedback Handling
- **Soft Skills:** Problem-solving, Quick Learner, Good Team Player, Strategic Planning, Understanding brand

PROFESSIONAL EXPERIENCE

Monarch Innovations | Full Stack Software Developer | Jan 2026 – Present

- Developing and maintaining Satchel Inc's FinTech product suite including liquidity.io (cap table management), simplici.io (SAFEs and convertible notes), and equitytable.io (equity management platform similar to Carta).
- White-labeling and customizing platforms for major clients including VC Cross and Morning Line Capital, ensuring brand consistency and client-specific feature requirements.
- Building scalable web applications using Next.js, Node.js, TypeScript, PostgreSQL, Supabase, NeonDB, and microservices architecture to handle complex financial workflows and compliance requirements.
- Implementing type-safe APIs and data validation using TypeScript and Zod, ensuring robust error handling and data integrity across all platforms.
- Collaborating with cross-functional teams including product managers, designers, and backend engineers to deliver high-quality, production-ready features with emphasis on security and performance.
- Managing state with Redux and building responsive, accessible UIs using React.js and Tailwind CSS for complex financial dashboards and reporting tools.

- Contributing to frontend and backend development, API integrations, database optimization, and performance tuning efforts across multiple concurrent projects.

Cilans Systems | Full Stack Software Developer | Aug 2024 – Dec 2025

- Promoted from a dual-role intern to full-time Full Stack Software Developer, developing and maintaining production-grade platforms using Next.js, TypeScript, and modern web technologies.
- Led development of AI-powered platforms including GranthAI (multilingual scripture preservation), Infobricks (pharma AI document automation), and Insightifi (SaaS analytics).
- Built and integrated features such as real-time chatbots, AI document insights, RAG-based NLP interfaces, agentic workflows, and role-based access control across multiple projects.
- Developed and maintained HRMS, CredLinkDN, JSBN Admin Panel, Jain Sangh Management Platform, and SimplCase, ensuring high performance and reliability using microservices architecture.
- Collaborated closely with design and product teams to implement responsive UIs, REST APIs, and seamless third-party integrations using Redux for state management.

MarketiXpert | Full Stack Developer (Freelance) | Jan 2024 – Present

- Designed and developed marketixpert.com using Next.js, Node.js, and TypeScript with a responsive, SEO-first UI architecture.
- Implemented on-page SEO strategies, performance optimization, and content marketing integrations, boosting client search visibility significantly within 3 months.
- Handled both frontend and backend development, deployment on Vercel, and ongoing maintenance.

Content Beta | Digital Marketer & Video Editor | Apr 2023 – Jan 2024

- Created engaging video content for marketing campaigns including short-form videos, motion graphics, and animated GIFs.
- Managed SEO, social media marketing, and content strategy efforts, contributing to brand visibility and online growth in a startup environment.

EDUCATION

- **M.Sc. in Information Technology** | Charusat University | 2023 – 2025 (CGPA: 8.18)
- **B.Sc. in Information Technology** | Charusat University | 2020 – 2023 (CGPA: 8.84)
